Safety rules for participating in the Competition

1. Safety, physical integrity and health of the participants are the most important objectives of the Competition. Fulfillment of any other objective (such as: supporting charity causes, traveling the proposed distance for each stage, promoting mass sport, etc.) cannot endanger the life, physical integrity or health of any participant.
2. Before each stage, all participants are required to attend the technical meeting in which they will discuss the distance of the route, the destination of the day, the stops, the weather conditions, etc. Failure to attend such a meeting excuses the organizers of any effect of not knowing these details and may result in the suspension of the respective competitor for that stage.

3. The route discussed in the technical sessions will be respected. In case of deviations from the route, one will return immediately to it.
4. The distances traveled in each stage of cycling or running are very long. Participants will be aware that fatigue can affect their physical and / or mental ability to travel the entire distance traveled for that stage and will interrupt the stage if there is a risk that their life may be endangered.
5. The travel in both the bicycle and the running stages is made on public roads in Romania and Bulgaria. The participants will strictly respect the traffic rules that apply to cyclists and pedestrians traveling on a public road.
6. The participants will travel in groups, depending on their physical capacity, and will not move away from the cars that assist them. They will keep a safe distance from the other competitors.
7. At least one mobile phone with which the emergency numbers can be called will be available in each group.
8. It is forbidden to use your mobile phone using your hand while riding a bicycle.
9. If you get injured, you will move (if you can) immediately to a safe area (outside the road area) and call the Organizers. If you see another injured participant, you will not continue the Competition, you will protect the area around him/her and you will immediately call 112 (if necessary) and the Organizers.
10. Wearing a helmet is mandatory while riding a bicycle.
11. The participants will be equipped with clothing that is visible from a distance to be avoided by drivers.
12. Participants will NOT be under the influence of alcoholic beverages and / or narcotics during the Competition stages.

I agree that the Organizers are not guilty if I suffer an injury that could endanger my life, physical integrity and / or health. Also, they are not to blame for the failure of the equipment used by me during the Competition: bicycle, clothing, shoes etc.

Emergency phone numbers are: Bulgaria: **112**, Romania: **112**
